

**Good news:** Felted, the company's popular acoustic wall covering, can now be laser cut, digitally printed, or engraved with custom designs. The material, available in 63-inch rolls with fused polyester backing, is earth friendly, made from 95 percent post-consumer recycled plastic bottles. It's also high-

**wolf-gordon**

performance: Felted boasts a .20 NRC rating and withstands 40,000 Martindale cycles, while its 25 colorways resist fading. [wolfgordon.com](http://wolfgordon.com) >
